# CONTENTS

No. 1, January, 1940

Fortieth Anniversary, Society of American Bacteriologists ..... 1
Scientific Proceedings, Forty-first General Meeting of the Society of American Bacteriologists, New Haven, Conn., December 28 to 30, 1939 ..... 3
Index of Authors ..... 103
Proceedings of Local Branches of the Society of American Bacteriologists, Connecticut Valley, Eastern Missouri, Southern California, and Northern California-Hawaiian Branches ..... 107

No. 2, February, 1940

Characteristics of Fungous Diseases. Arthur T. Henrici ..... 113
The Oxidation-Reduction Potential Requirements of a Non-Spore-Forming, Obligate Anaerobe. Birgit Vennesland and Martin E. Hanke ..... 139
Factors Influencing Attenuation of *Phytomonas stewarti* Cultures. George L. McNew ..... 171
Respiratory Enzyme Systems in Symbiotic Nitrogen Fixation. III. The Respiration of Rhizobium from Legume Nodules and Laboratory Cultures. D. W. Thorne and R. H. Burris ..... 187
The Growth of Human Tubercle Bacilli, H37, in Synthetic Medium with and without Agar. W. F. Drea ..... 197
Taxonomic Relationships of *Alcaligenes spp.* to Certain Soil Saprophytes and Plant Parasites. H. J. Conn, Gladys E. Wolfe and Mark Ford ..... 207
Proceedings of Local Branches, Society of American Bacteriologists, Washington and Southern California Branches ..... 227

No. 3, March, 1940

Transmission of Epidemic Influenza Virus in Mice by Contact. Monroe D. Eaton ..... 229
A Study of the Antibacterial Activity of Some Fluorinated Aromatic Mercurials. Melvin F. W. Dunker and Thomas C. Grubb ..... 243
Studies with *H. pertussis*. II. Maintenance of Cultures in Phase I. E. W. Flosdorf and Anne C. Kimball ..... 255
The Effect of the New Standard Milk Agar on the Plate Count of Dairy Products. F. E. Nelson ..... 263
Growth Factors for Bacteria. X. Additional Factors Required by Certain Lactic Acid Bacteria. E. E. Snell and W. H. Peterson ..... 273
Synthetic Media for Culture of Certain Hemolytic Streptococci. D. W. Woolley and Brian L. Hutchings ..... 287
The Enumeration of Bacteria by the Microscopic Method. John H. Hanks and David F. James ..... 297

The Effect of Oxygen Tension on the Oxygen Uptake of Lake Bacteria. Claude E. ZoBell and Janice Stadler ..... 307
A New Species of the Genus *Pseudomonas* Pathogenic for certain Reptiles. Mary E. Caldwell and Dwight L. Ryerson ..... 323
Proceedings of Local Branches of the Society of American Bacteriologists, Illinois, Washington, Eastern Pennsylvania, Ohio, Missouri Valley Branches ..... 337

No. 4, April, 1940

Serological Studies in Relation to the Problem of Tumor Causation. John G. Kidd ..... 349
Effect of Temperature on the Growth Rates of Rhizobia. Franklin E. Allison and Francis W. Minor ..... 365
Synthesis of Coenzyme R by Certain Rhizobia and by *Azotobacter chroococcum*. Franklin E. Allison and F. W. Minor ..... 373
Action of Penicillin on Enterococci and Other Streptococci. Siegbert Bornstein ..... 383
Evaluation of the Errors Involved in Estimating Bacterial Numbers by the Plating Method. Marshall W. Jennison and George P. Wadsworth ..... 389
Fermentation of Sugar Acids by Bacteria. Gordon B. Robbins and Keith H. Lewis ..... 399
Study of the Serum-Neutralization Test in Poliomyelitis. Absorption and Elution of Antibody with Alumina-Gel and a Virus-Alumina-Gel Complex. James A. Harrison and N. Paul Hudson ..... 405
Utilization of Nicotinic Acid and Related Pyridine Compounds by the Proteus Group of Organisms. Michael J. Pelczar, Jr., and J. R. Porter ..... 429
Investigation of the Production of Growth-Promoting and Growth-Inhibiting Factors by Ultra-Violet Irradiated Microörganisms. John R. Loofbourow and Sister Mary Norbert Morgan ..... 437
Comparison of the Neutralizing Ability of Streptococcal Antisera NY5 and 594. Helen Plummer and Frieda H. Fraser ..... 455
Studies on an Acid-Fast Bacterium Frequently Present in Tonsillar Tissue of Swine. Alfred G. Karlson and William H. Feldman ..... 461
Proceedings of Local Branches of the Society of American Bacteriologists, Illinois Branch ..... 473

No. 5, May, 1940

Sensitivity of *Escherichia coli* to Cold-Shock during the Logarithmic Growth Phase. C. P. Hegarty and Owen B. Weeks ..... 475
The Utilization of Amino Acids and of Glucose by *Clostridium botulinum*. C. E. Clifton ..... 485
Action of Acetic Acid on Food Spoilage Microörganisms. A. S. Levine and C. R. Fellers ..... 499
A Study of the Biological Characteristics of Type III Pneumococcus, Cultivated at Temperatures below 37°C. Sophie Spicer ..... 517
Some Functions of Bacteria in the Purification of Polluted Water. C. T. Butterfield ..... 527

The Effects of Ultraviolet Light on Bacteria Suspended in Air. D. Gordon Sharp ..... 535
On the Classification of Actinomycetes. Selman A. Waksman ..... 549
Studies on the Anaerobic Streptococcus. I. Certain Biochemical and Immunological Properties of Anaerobic Streptococci. Melvin L. Stone. 559
A Study of Floc-Forming Organisms in Chlorinated Water Supplies. A. M. Buswell and Max Suter ..... 583
A Sterile Transfer Chamber. Alden F. Roe ..... 589
Relation Between Temperature Growth Range and Size in the Genus *Bacillus*. Carl Lamanna ..... 593
The Potency of Nascent Streptococcus Bacteriophage B. Alice C. Evans.. 597
A Green Pigment from *Candida stellatoidea* and *Candida albicans*. Claudius P. Jones and Robert L. Peck ..... 605
Further Studies on the Practical Classification of the Monilias. Donald S. Martin and Claudius P. Jones ..... 609
Proceedings of Local Branches of the Society of American Bacteriologists, Indiana Branch ..... 631

No. 6, JUNE, 1940

Dissociation of *Candida albicans* by Lithium Chloride and Immune Serum. Walter A. Mickle and Claudius P. Jones ..... 633
Studies on Capsule Formation. II. The Influence of Electrolytes on Capsule Formation by *Klebsiella pneumoniae*. J. C. Hoogerheide ..... 649
Morphological Variation of the Tubercle Bacillus and Certain Recently Isolated Soil Acid Fasts with Emphasis on Filtrability. Harriette D. Vera and Leo F. Rettger ..... 659
The Differentiation of Hemolytic Streptococci from Various Sources by the Group Precipitin Reaction and by Biochemical Tests. J. B. Gunnison, M. P. Luxen, J. R. Cummings and M. S. Marshall ..... 689
The Dissimilation of Glycerol by Coli-Aerogenes Intermediates. M. N. Mickelson and C. H. Werkman ..... 709
Studies on Streptococcal Fibrinolysis. John D. LeMar and Millard F. Gunderson ..... 717
Human Scarlatinal Streptococci in Monkeys. Paul L. Boisvert ..... 727
Spectroscopic Analysis of the Mineral Content of Yeast Grown on Synthetic and Natural Media. Oscar W. Richards and Mary C. Troutman ..... 739
The Utilization of Acetyl Methyl Carbinol by *Staphylococcus albus* and *aureus*. Bernard Segal ..... 747
Proceedings of Local Branches of the Society of American Bacteriologists, Eastern Missouri, Eastern Pennsylvania and Washington Branches ..... 751
